

CLEAN CASH

Point of Sale (POS) System

Demo Video: <https://www.youtube.com/watch?v=1pYWPbm6O6k>

Uses high intensity UVC light to kill pathogens found on cash

- Protect your employees from COVID-19 and other infections
- Differentiate your store by providing clean cash to customers
- Accommodate patrons that may not have access to banking
- Save money by taking in fee free cash particularly on small \$ sales

Killing the COVID-19 virus and other pathogens in **1 second**

- In 1 second The CLEAN CASH™ Machine delivers $>10\text{mJ}/\text{cm}^2$ of UVC light to both sides of a bill which is enough energy to kills 99.9% of the COVID-19 virus on most surfaces*.
- CLEAN CASH™ machine should also disable $>99\%$ Staph and E-Coli Bacteria; Influenza A, SARS and Human Rhino Viruses (and many more).
